

APARNA VINOD

Full Stack Developer (MERN)

aparnavinod083@gmail.com | 8089806581 | Kochi, Kerala, India | <https://www.linkedin.com/in/aparna-vinod-17-/> | <https://github.com/aparnavinod201002>

PROFESSIONAL SUMMARY

MERN Stack Developer with over 1 year of professional experience building scalable, production-grade web applications. Proficient in MongoDB, Express.js, React.js, and Node.js with hands-on expertise in RESTful API design, JWT authentication, real-time communication (Socket.IO), third-party payment integrations (Stripe, Razorpay, Cashfree), and PostgreSQL.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Typescript, Python, Java, C, C++, HTML5, CSS3

Frontend: React.js, Angular, Redux, Context API, Bootstrap, Material-UI

Backend: Node.js, Express.js, RESTful APIs, Socket.IO, JWT Authentication, Prisma ORM

Databases: MongoDB, PostgreSQL, MySQL

Integrations: Stripe, Razorpay, Cashfree, Cloudinary, Brevo (email), RFID, GPS tracking **Tools**

& Platforms: Git, GitHub, Postman, VS Code, npm

PROFESSIONAL EXPERIENCE

4 Hand Studio Pvt. Ltd. | MERN Stack Developer *Mar*

2025 – Mar 2026 | Kochi, India

- Built a multi-role School Management System featuring Admin, Staff, School, and Guardian panels with RFID-based automated attendance tracking via card readers and GPS-based real-time vehicle tracking for school transport.
- Developed a learning management platform supporting Basic, Advanced, and Premium subscription plans with course tracking, assessments, and role-based access for Admins, Mentors, and Students.
- Engineered a study admission system for Ireland-based university applications, managing Counselors, Students, Admin, and University workflows using PostgreSQL and Prisma ORM.
- Created an employee attendance and performance tracking system with role-based dashboards for leave management and staff monitoring.
- Integrated payment gateways (Stripe, Razorpay, Cashfree), Cloudinary for media storage, and Brevo for transactional email notifications across multiple projects.
- Built a real-time chat application using Socket.IO enabling bidirectional messaging with efficient WebSocket connection management.
- Tech stack: React.js, Node.js, Express.js, MongoDB, PostgreSQL, JWT, Prisma ORM, RESTful APIs, Socket.IO

Luminar Technolab | MERN Stack Developer (Trainee)

Jun 2024 – Jan 2025 | Kochi, India

- Developed responsive web applications using React.js with Bootstrap and Material-UI, implementing routing, Redux/Context API state management, and reusable component architecture.
- Integrated Node.js and Express.js backends with MongoDB, building RESTful APIs and connecting frontend to backend services across multiple training projects.

KEY PROJECTS

Connect Chat — Real-Time Chat Application | connect-chat-frontend.vercel.app *React.js,*

Node.js, Express.js, Socket.IO, MongoDB, JWT

- Built a real-time chat application with user registration and JWT-based authentication, enabling secure and personalised messaging experiences.
- Implemented bidirectional messaging using Socket.IO with support for both text messages and file sharing, providing a seamless communication platform.
- Designed an intuitive chat interface with real-time delivery indicators and organised conversation threads for an enhanced user experience.

Kalagraham — Event Management Platform | React.js, Node.js, MongoDB, Payment Gateway

- Built a multi-role carnival management platform for Admins, Artists, and Users with admin dashboard for location/event management, artist registration with approval workflows, and ticket booking with secure payments.
- Optimised MongoDB queries for efficient data retrieval; implemented image/video gallery features.

Pensphere — Full-Stack Blogging Platform | MERN Stack, JWT, Redux

- Developed a blogging platform with JWT-based authentication, role-based user management, and CRUD operations for posts and comments. Implemented public/private post visibility, search, pagination, and a commenting system.

ReadMax Global Education — Educational Consultancy Website | React.js

- Built a fully responsive frontend website for an educational consultancy covering course guidance, college selection support, and student communication features.

Ayurvedic Products E-Commerce App | Angular, Ionic, PHP, MySQL

- Developed a full-stack e-commerce platform for Ayurvedic products and treatment bookings with secure payments, order tracking, and an admin panel for product and booking management.

Media Player Application | React.js, JSON Server

- Built an interactive media player with playlist management, track details, and user preferences using JSON Server as a simulated backend API.

EDUCATION

Santhigiri College of Computer Science — Bachelor of Computer Applications (BCA) — CGPA: 6.7 2021

– 2024 | Vazhithala, Idukki

H.S.S Koothattukulam — Higher Secondary (12th)

2019 – 2021 | Kerala

Little Flower High School — Secondary School (10th)

2018 – 2019 | Vadakara, Kerala
